

BOKKA SIRI CHANDANA

Phone: +91(756)969-1298 | E-Mail: bokkasirichandanareddy@gmail.com | [LINKEDIN](#) | [Github](#)

Hyderabad,Telangana,India,500081

EDUCATION

Keshav Memorial College of Engineering (Bachelor's – CSE AI&ML)

2020-2024

[Hyderabad,Telangana,India]

EXPERIENCE

Associate AI Engineer @Novum Labs

[03/2025-present]

Tech: Python, FastAPI, LLM Integration, AI Automation, NLP, MySQL, Flask

- Developed and integrated an **AI-powered assistant** into the application to address student doubts related to classes and academic topics in real time.
- Implemented **intelligent query-handling workflows** to assist parents with class-related inquiries, schedules, and academic information.
- Integrated **LLM-based** conversational capabilities with development teams to optimize **API performance**, **Streamline AI integration**.

PROJECTS

Enterprise AI Assistant (Personal Project) -[Github link](#)

- Built an AI-powered agentic assistant enabling natural language interactions with enterprise systems using multi-agent workflows and intelligent routing.
- Designed modular agent orchestration using LangGraph with LLM-driven tool calling and enterprise API integration for contextual query handling.
- Developed a professional Streamlit chat interface for interactive querying and scalable enterprise assistant workflows.
- Implemented intelligent data retrieval and response formatting pipelines to convert raw enterprise API responses into human-readable insights.

PERSONALIZED MEDICAL RECOMMADATION SYSTEM (IEEE Conference Publication)

- Utilized supervised and unsupervised learning techniques to analyze patient data and implemented deep learning models (CNNs ,RNNs) for medical image analysis.

TECHNICAL SKILLS

Languages &databases	:	Python, SQL, MySQL
Libraries and Frameworks	:	FastAPI, LangChain, TensorFlow, PyTorch, Hugging Face, Pandas, NumPy, Scikit-Learn, OpenCV, Streamlit
Agentic AI /LLMs	:	Multi-step reasoning, Tool-calling workflows, Prompt optimization, Generative AI, Conversational AI
Data Science & Visualization	:	PowerBI, Matplotlib, Seaborn, Data Preprocessing, Data Analysis, Statistical Analysis.
Artificial Intelligence &ML	:	Deep learning, LLMs, Generative AI, NLP, Recommendation Systems, Agentic AI, RAG (Retrieval-Augmented Generation)
Tools and platforms	:	GitbHub, VS Code, Jupyter Notebook, Postman, MySQL Workbench, Excel.

CERTIFICATIONS

- **AGENTIC AI** 2025
Data minds and Durga soft
- **Machine Learning with Python** 2024
VERZEO and CISCO - *Emphasis on data manipulation, statistical analysis, and visualization in Python*
- **POWERBI AND DATA ANALYTICS** 2022
Edunet Training-*Expertise in Data Visualization Reporting*

EXTRA CURRICULAR ACTIVITIES

- ROTARACT MEMBER (MITHRAN)
- VOICE FOR GIRLS (COUNCELLOR)
- YOUTH FOR SEVA (Hyderabad, Telangana)
